BRITISH POLICING TRANSFERRED TO BRITISH ADMINISTRATORS IN IRELAND

British policing in Ireland has always been political irrespective of whether it is administered from London or Stormont. Therefore it will make little difference to the nationalist people because if they oppose British Rule in Ireland they will be quelled with intimidation and harassment from this very same police force,

Those who sit in Stormont and say different know they have no power to change these arrangements which they signed up to at the St Andrews and Hillsborough agreements. They can only pay lip-service to the ongoing bully boy tactics used against republicans and the nationalist people generally.

Sadly history is repeating itself when Home Rule representatives advocate these human rights abuses against their fellow citizens to protect their new found positions within the British Establishment. Already we have PSF Police Board Member Daithi McKay urging the establishment of 'Specialist Units' to deal with the 'dissident threat'. Is the 'new beginning'?

The Sinn Fein leadership know full well republicans cannot support such a force and they know republicans will continue their opposition to interference in the Irish Nation by a foreign occupying power and they also know there is nothing they can do about it other than to allow British Policing to deal with such opposition through fair or foul means.

They know the Chief Constable of the PSNI/RUC can at any time call on whatever covert agencies at the disposal of the British Government including the SAS, MI5 or MI6 to deal with the nationalist people if they gain success in exposing the propaganda emanating from Westminster or Stormont.

They also know of the increased abuse of Section 44 of the emergency powers by the PSNI/RUC with their stop and search operations against republicans and the nationalist people and they can do nothing about it. These abuses find a willing audience in the Crown Courts as the recent incarceration of 32CSM member Gary Donnelly from Derry attests.

The 32 County Sovereignty Movement are inundated with calls of complaint from across Tyrone in relation to harassment and intimidation in areas such as Carrickmore, Coalisland, Castlederg, Strabane, Omagh and Cookstown and we ask people to continue to stand up for their rights and expose these abuses. We call on anyone who is abused in such a way to contact us so we have a true picture of the extent of such intimidation and in cases where people are threatened we suggest that such cases be recorded with their solicitor.

Tyrone Brigade **I.R.A. Statement.**

We the Tyrone Brigade of the Irish Republican Army detonated an explosive device at the rear of a property in the Coalisland area on Thursday 18th February at approximately 22:40hrs as a warning to the families occupying these properties that their anti-social behaviour will no longer be tolerated within the Tyrone area.

After a long intensive investigation by the Irish Republican Army our volunteers can verify that members from each household have been involved in criminal activity and anti-social behaviour.

These activities include the theft of copper, heating oil and the dealing of DRUGS! These people have used local children as young as 12yrs old to steal copper from vacated premises in return for fireworks and cannabis. Our volunteers have also monitored the movements of a particular member of this family and have observed him dealing in drugs at certain locations within the Coalisland area, namely the Line Side, where groups of youths congregate for the distribution of drugs. If others involved in the dealing of drugs in the area do not desist from their activities then it will be forced upon our volunteers to take immediate action against them.

The family targeted are members of the Travelling Community and have been responsible for introducing into the area feuding families from Belfast and Derry who were involved in the brutal murder and knife attacks on members of their own community.

The IRA would like to state that this is not an attack on the Travelling Community, but an attack on anti-social elements within it. We demand the families involved vacate the area within 48hrs or further action will be taken against them.

Tyrone 32CSM's Response to British MLA **Francie Molloy's comments!**

After the IRA's actions against anti-social elements in Coalisland, Sinn Fein's Francie Molloy launched a scathing attack on Republicans, labelling them as racist and suggesting that they were attacking the most vulnerable in society.

Since the IRA statement was released the 32CSM have observed how Drugs are no longer being distributed on the lineside, (the same area his Sinn Fein colleague and British Policing board member Dessie Donnelly referred to in The Tyrone Times on Tuesday 23rd February) and that there has been a massive decrease in Anti-social behaviour in the Coalisland area.

Francie Molloy also suggested the attack may have been a sinister attempt to vacate the houses for others to move into. Had Mr. Molloy taken the time to keep up to date on the issues he pretends to be so concerned about then he would have noticed that there were several vacant properties in the area which had their entire heating systems removed and they were left uninhabitable due to Anti-social elements and vandalism.

Unlike Mr. Molloy the 32CSM have been working with the residents on the ground and we would urge residents to call meetings and air their concerns publicly with other residents from the local area so the problems with-in their community can be resolved. We have also been in dialogue with the local youth offering them help and advice. We believe that it is very important to work alongside our youth on social issues. In previous weeks our members have visited the homes of several youths at the request of their parents seeking our advice and help.

The 32CSM would like to take this opportunity to remind people that help and advice is available. If you are suffering as a result of Anti-social elements with-in our society you can contact the Tyrone 32 CSM via email at, 32csm.tyrone@googlemail.com or alternatively you can contact one of our local members.
